| Project Name | Smart Fashion Recommender Application |

The screenshot displays the IBM Watson Assistant interface. The top navigation bar shows the project name 'Smart Fashion P...' and an 'Upgrade' button. The left sidebar contains a menu with 'Actions' and 'Variables' sections. The 'Variables' section is currently selected, showing a list of variables created by the user. The main area displays a table with the following data:

| Name | Type | Initial value | Description | Variable ID |
|---------|--------------|---------------|-------------|-------------|
| Address | Tr Free text | | | Address |
| Name | Tr Free text | | | Name |
| Pincode | Number | | | Pincode |

At the bottom of the table, there is a pagination control showing 'Items per page: 50' and 'Showing 1-3 of 3 variables'. A 'Preview' button is located at the bottom right of the interface.
